With this course outline and notes, I am entrusting you with my life's work. Your agreement in accepting these papers is that you will safeguard my work from plagiarism and / or abuse of my copyrights, which are now pending. Please do not reproduce in any form.

The text in Section I and the images in Section II were entirely written and produced by Dr. Castellino and fully subject to copyright.

Since 1990, my production staff and I collectively took upwards to 1000 hours to research, collect and reproduce these images from the original works of Caldwell, Moloy, Swenson, De Lee and Greenhill. We have reproduced the originals in the highest quality that current technology can support.

These images are well over 55 to 75 years old and are no longer subject to copyright laws. I am writing a book that is forthcoming with these images or their likenesses. Please respect the work we have invested into making them available for you and my intended use. Do not reproduce them.
